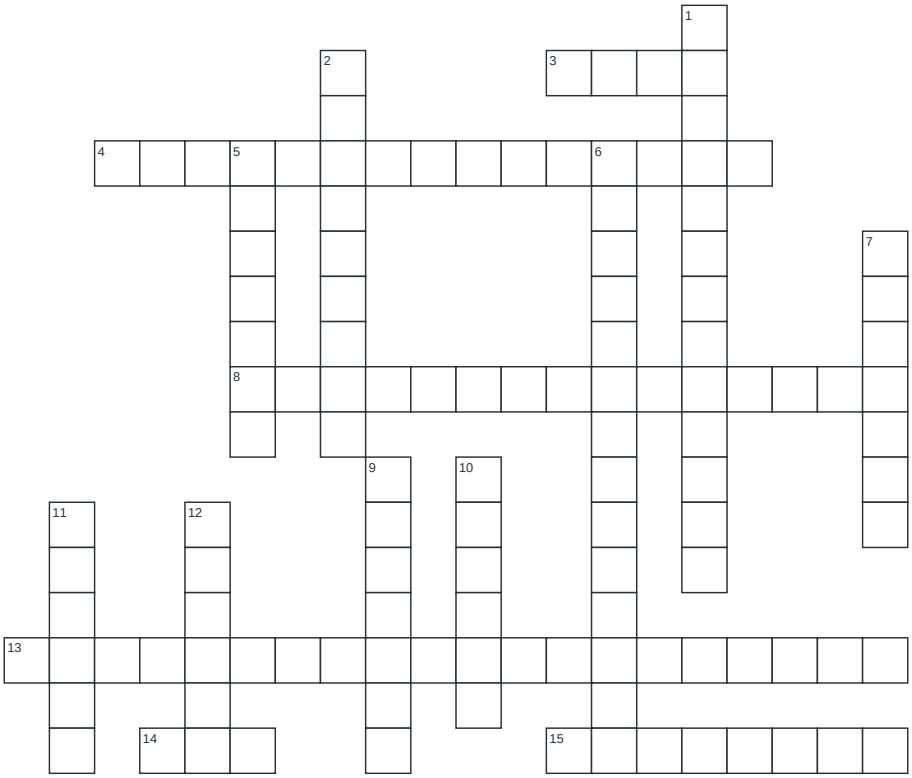
Electric Circuits Crossword

Medium | 15 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

3. Protective device that opens a circuit when current is too high.
4. A circuit containing more than one branch for current
8. The rate of electric charge flow
13. Property that opposes electric current in a material or component
14. Unit that measures resistance
15. Circuit component designed to provide electrical resistance.

DOWN

1. A circuit with one path through its components

DOWN (continued)

2. Instrument connected in parallel to measure potential difference.
5. Instrument connected in series to measure current.
6. Material path that allows charge to flow through a circuit.
7. Source that maintains a potential difference using chemical reactions.
9. Electric potential difference between two points
10. Unit that measures current
11. Relationship among voltage, current, and resistance for an ohmic component.
12. Component that opens or closes a circuit path.

Electric Circuits Crossword

Medium | 15 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.

ACROSS

3. Fuse
4. Parallel Circuit
8. Electric Current
13. Electrical Resistance
14. Ohm
15. Resistor

DOWN

1. Series Circuit

DOWN (continued)

2. Voltmeter
5. Ammeter
6. Conducting wire
7. Battery
9. Voltage
10. Ampere
11. Ohm law
12. Switch
