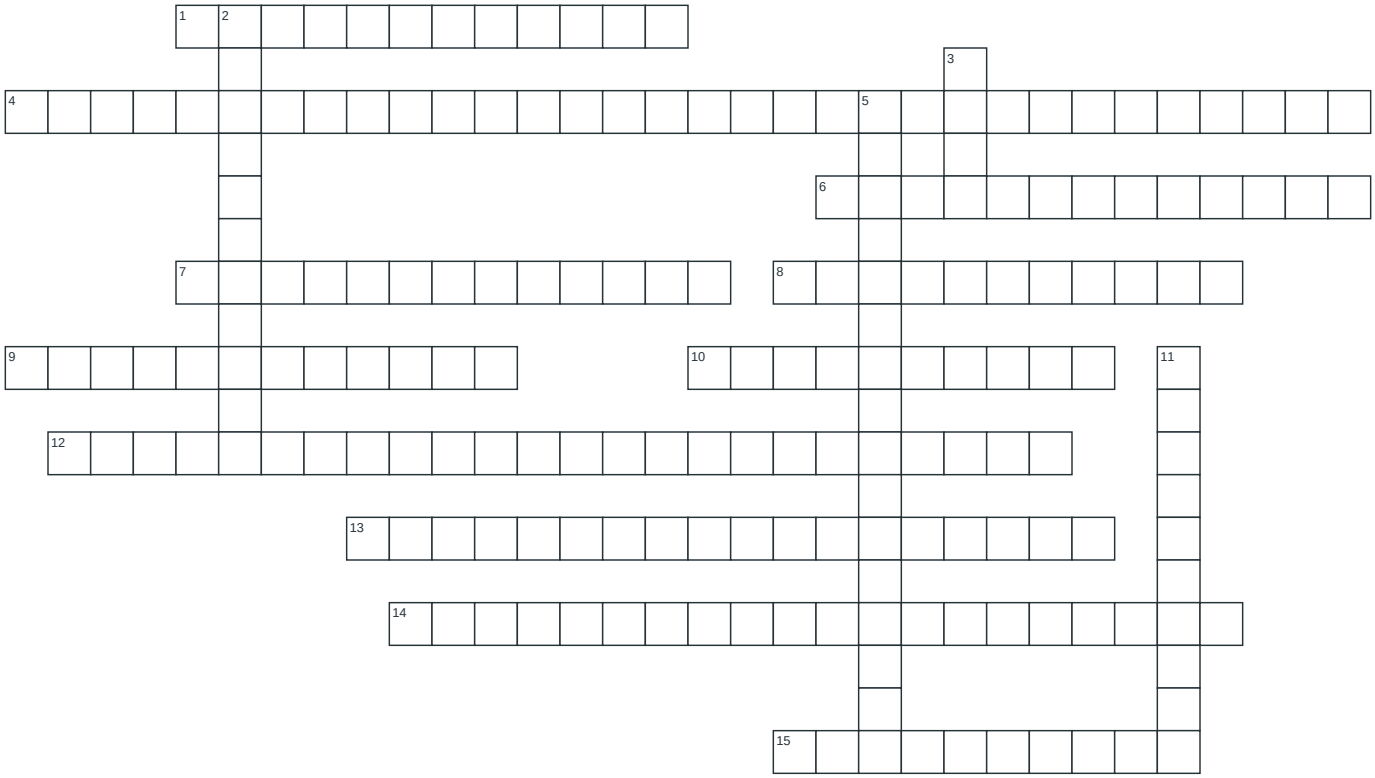
Heat and Thermal Energy Crossword

Medium | 15 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

1. Energy needed per unit mass to raise a substance one degree.

4. A condition of equal temperature with no net heat transfer between them

6. Energy transferred because of a temperature difference

7. Energy associated with the motion and interactions of particles in a substance.

8. Measure related to the average kinetic energy of particles

9. Upward force a fluid exerts on an object within it.

10. Material or design that reduces the rate of heat transfer.

12. Way does net heat transfer occur spontaneously between contacting objects

ACROSS (continued)

13. Condition in which objects have equal temperature and there is no net heat transfer.

14. Energy required to raise the temperature of a unit mass by one degree

15. Energy transfer through interactions within or between contacting materials

DOWN

2. Physical change from one state of matter to another.

3. Energy transferred between objects because of a temperature difference.

5. Energy transfer by electromagnetic waves

11. Energy transfer associated with bulk movement of a fluid

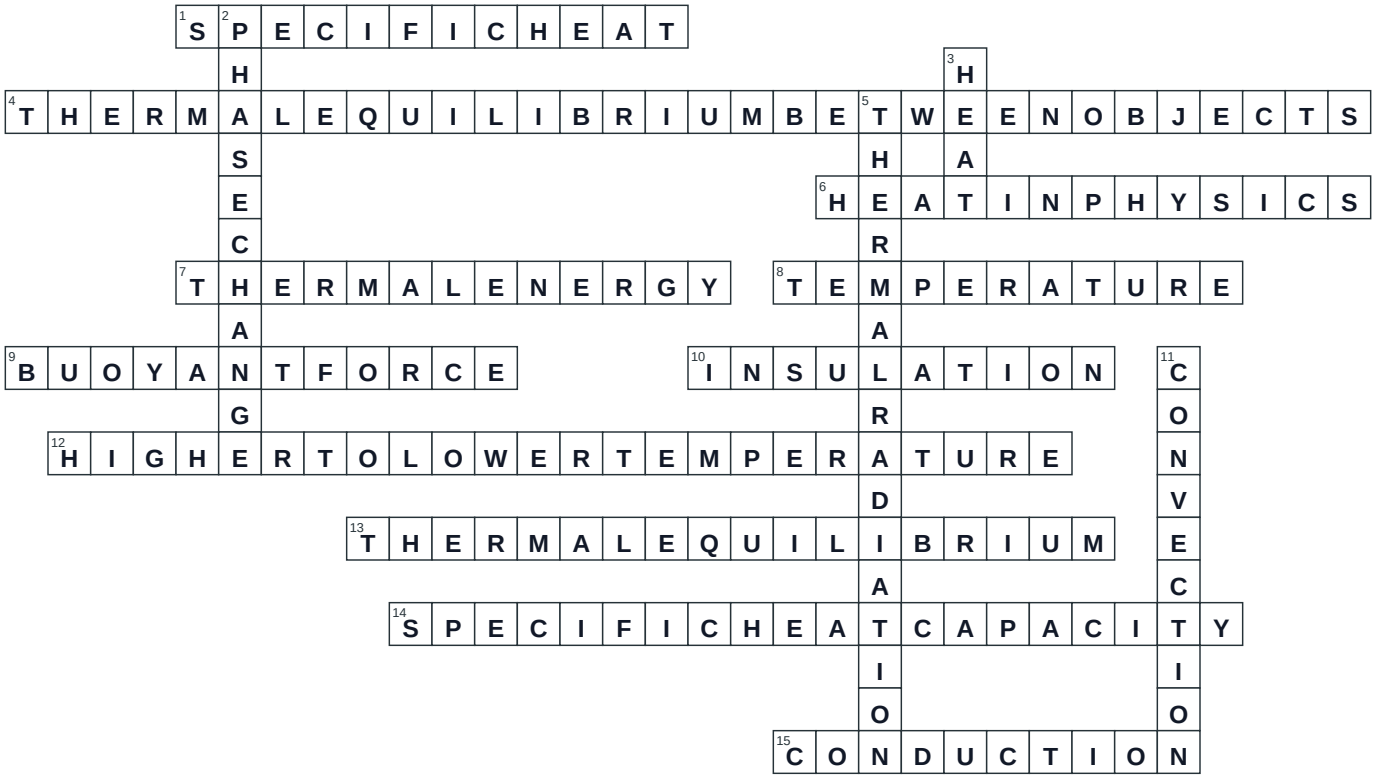
Heat and Thermal Energy Crossword

Medium | 15 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

1. Specific heat
4. Thermal Equilibrium Between Objects
6. Heat In Physics
7. Thermal energy
8. Temperature
9. Buoyant force
10. Insulation
12. Higher To Lower Temperature

ACROSS (continued)

13. Thermal equilibrium
14. Specific Heat Capacity
15. Conduction

DOWN

2. Phase change
3. Heat
5. Thermal Radiation
11. Convection
