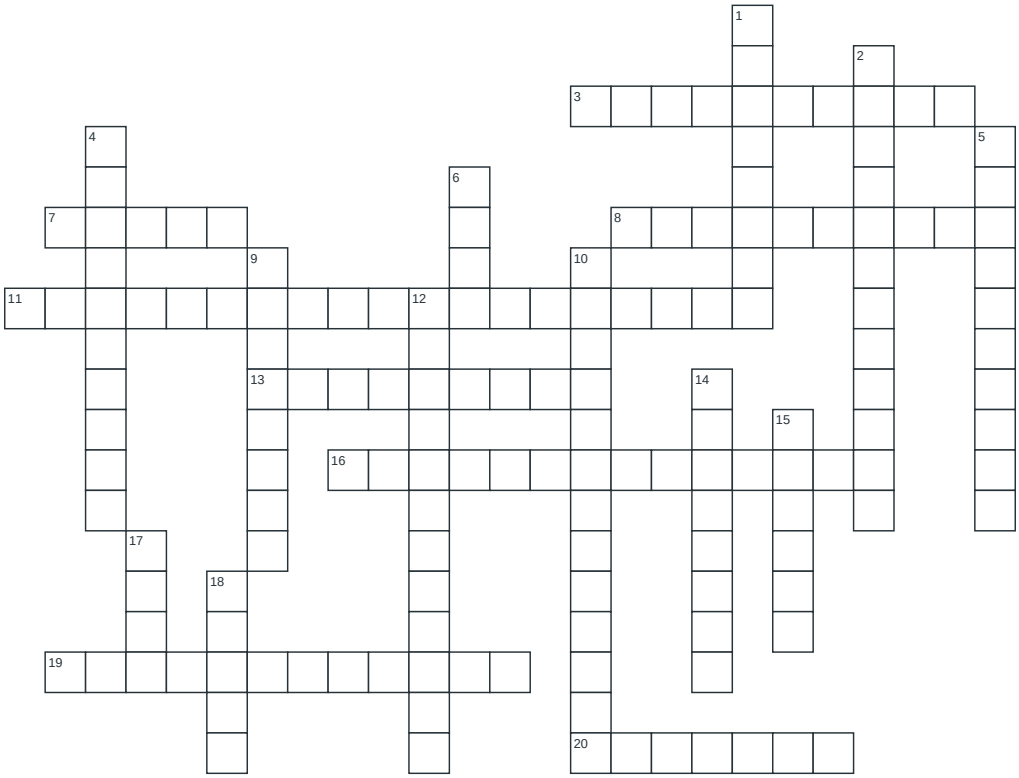
Earth Moon and Sun Crossword

Hard | 20 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

3. Difference in gravitational pull across an extended object, contributing to ocean tides.

7. Path of an object as it moves around another object under gravity.

8. One complete orbit of Earth around the Sun

11. Rotation in which an object's spin period matches its orbital period.

13. Angle between a planet's rotation axis and a line perpendicular to its orbital plane.

16. Causes the regular cycle of day and night on Earth

19. Event in which Earth's shadow falls on the Moon.

20. Lunar phase when the Moon is near the direction of the Sun in the sky.

DOWN

1. At which phase is the Moon's near side fully illuminated as viewed from Earth

2. Plane containing the path of an orbiting object.

DOWN (continued)

4. Tide with a large tidal range near new or full moon, when solar and lunar effects align.

5. Apparent shape of the Moon's sunlit portion as viewed from Earth.

6. Type of object is the Sun

9. Spin of an object around its axis.

10. Earth's spin around its axis, producing the daily cycle of day and night.

12. Event in which the Moon passes between Earth and the Sun and blocks some sunlight.

14. Tide with a small tidal range near first- or third-quarter moon

15. In June, the Northern Hemisphere is tilted toward the Sun. What season generally occurs in southern Australia

17. During a solar eclipse, which object lies between Earth and the Sun

18. During a lunar eclipse, which object lies between the Sun and the Moon

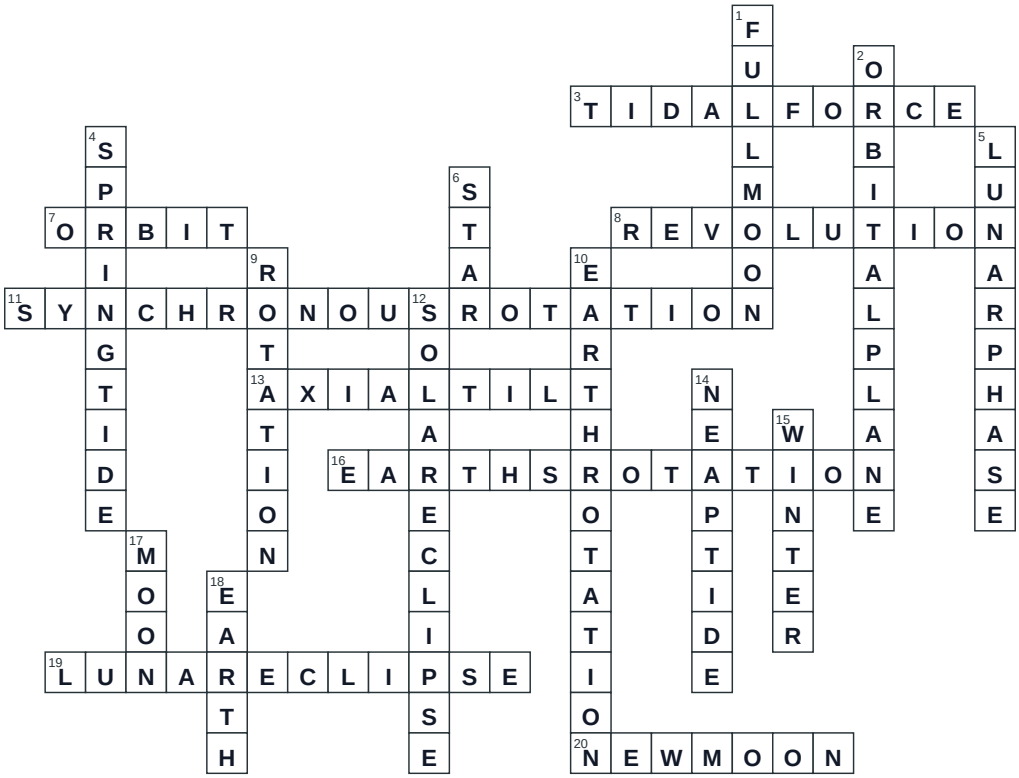
Earth Moon and Sun Crossword

Hard | 20 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

3. Tidal force
7. Orbit
8. Revolution
11. Synchronous rotation
13. Axial tilt
16. Earth's Rotation
19. Lunar eclipse
20. New moon

DOWN

1. Full Moon

DOWN (continued)

2. Orbital plane
4. Spring tide
5. Lunar phase
6. Star
9. Rotation
10. Earth rotation
12. Solar eclipse
14. Neap Tide
15. Winter
17. Moon
18. Earth
