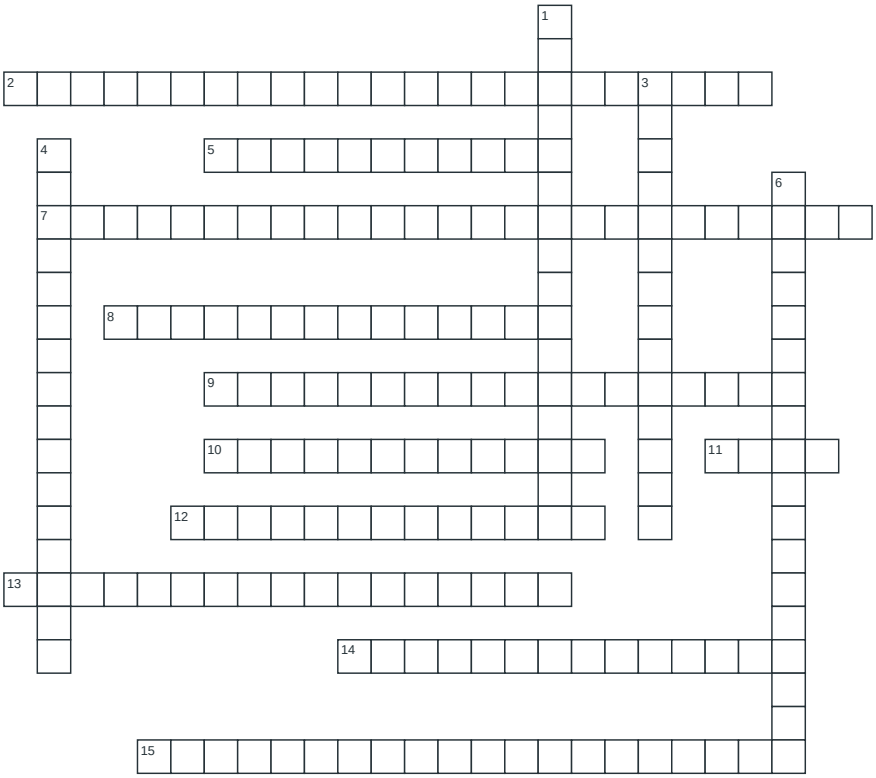
Air Quality Crossword

Medium | 15 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

2. Carbon-containing compound that readily enters the air as a gas.

5. Exchange of indoor air with outdoor air.

7. A sunny afternoon follows a morning with substantial ozone-precursor emissions. What pollutant formation is plausible

8. Colorless gas produced by incomplete combustion that interferes with oxygen transport

9. A pollutant formed through reactions in the atmosphere

10. Atmospheric condition in which warmer air overlies cooler surface air.

11. Air pollution mixture that can include ozone and fine particles.

ACROSS (continued)

12. Small airborne particles that can be inhaled deeply into the lungs.

13. Suspended solid particles and liquid droplets

14. Group of gases that can contribute to smog and ozone formation.

15. Atmospheric condition in which warmer air lies above cooler air near the surface

DOWN

1. Secondary pollutant formed when nitrogen oxides and volatile organic compounds react in sunlight.

3. Pollutant that participates in reactions forming ground-level ozone.

4. A pollutant emitted directly from a source

6. Pollutant released when a fuel burns.

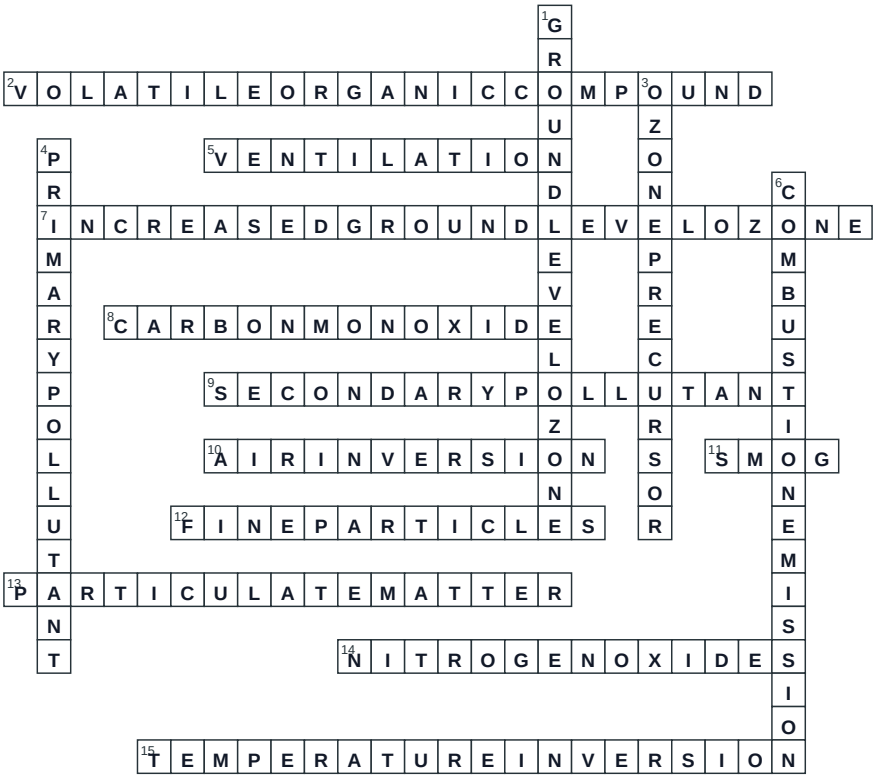
Air Quality Crossword

Medium | 15 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

2. Volatile organic compound
5. Ventilation
7. Increased Ground-level Ozone
8. Carbon Monoxide
9. Secondary Pollutant
10. Air inversion
11. Smog
12. Fine particles

ACROSS (continued)

13. Particulate Matter
14. Nitrogen oxides
15. Temperature Inversion

DOWN

1. Ground-level ozone
3. Ozone precursor
4. Primary Pollutant
6. Combustion emission
