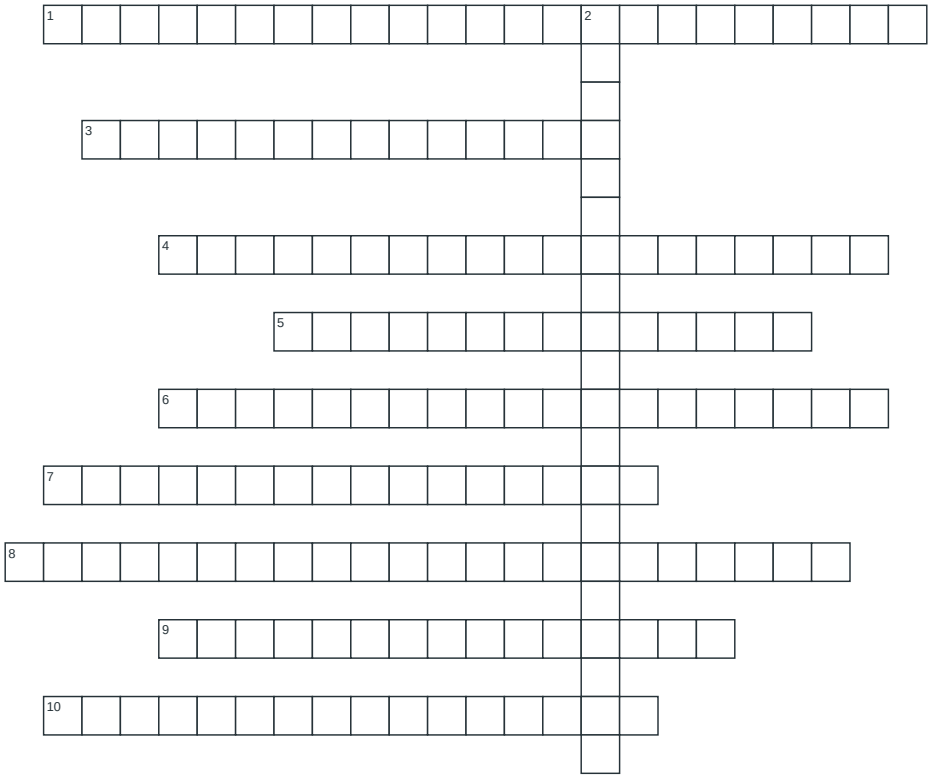
Environmental Pollution Crossword

Easy | 10 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

1. Pollution entering from diffuse sources across an area

3. Nutrient enrichment that can lead to excessive algae and low oxygen

4. Contaminant that breaks down slowly and can remain in the environment.

5. Soil particles carried from land into surface water by flowing water.

6. Actions that reduce or eliminate pollutants before they enter the environment.

ACROSS (continued)

7. Increase in contaminant concentration at higher trophic levels

8. A substance or energy input capable of environmental harm

9. Buildup of a substance in an organism over time

10. A harmful alteration of environmental temperature, often in receiving water

DOWN

2. A specific identifiable discharge location

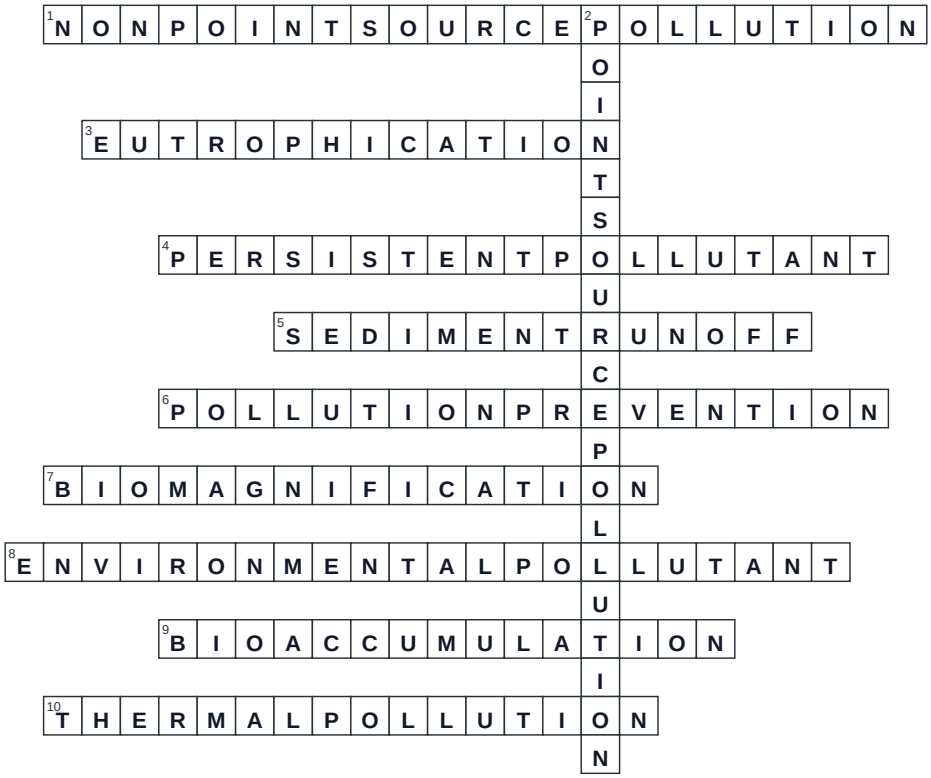
Environmental Pollution Crossword

Easy | 10 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

1. Nonpoint-source Pollution
3. Eutrophication
4. Persistent pollutant
5. Sediment runoff
6. Pollution prevention
7. Biomagnification

ACROSS (continued)

8. Environmental Pollutant
9. Bioaccumulation
10. Thermal Pollution

DOWN

2. Point-source Pollution

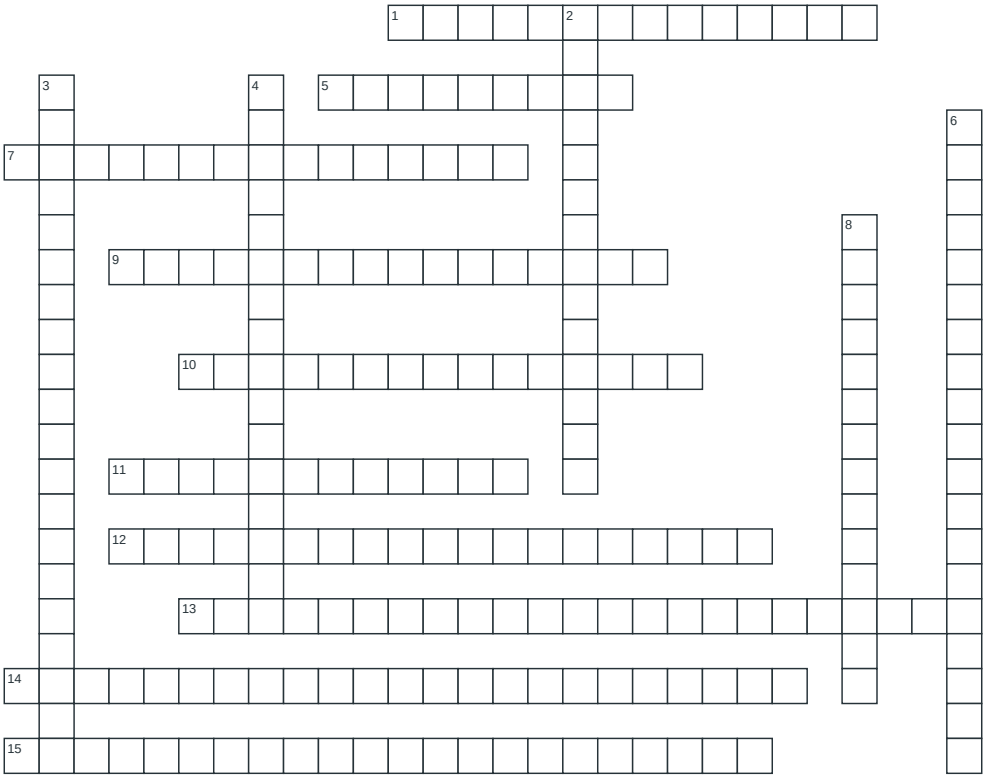
Environmental Pollution Crossword

Medium | 15 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

1. Soil particles carried from land into surface water by flowing water.
5. Cloudiness caused by suspended particles
7. Oxygen gas in water that is available to aquatic organisms.
9. Increase in contaminant concentration at higher trophic levels
10. Buildup of a substance in an organism over time
11. Measure that can indicate dissolved ions in a water sample.
12. Contaminant that breaks down slowly and can remain in the environment.
13. Pollution entering from diffuse sources across an area

ACROSS (continued)

14. Estimate of oxygen used by microbes as they decompose organic matter.
15. A substance or energy input capable of environmental harm

DOWN

2. Nutrient enrichment that can lead to excessive algae and low oxygen
3. A specific identifiable discharge location
4. A harmful alteration of environmental temperature, often in receiving water
6. Actions that reduce or eliminate pollutants before they enter the environment.
8. Microorganism measured as evidence of possible fecal contamination in water.

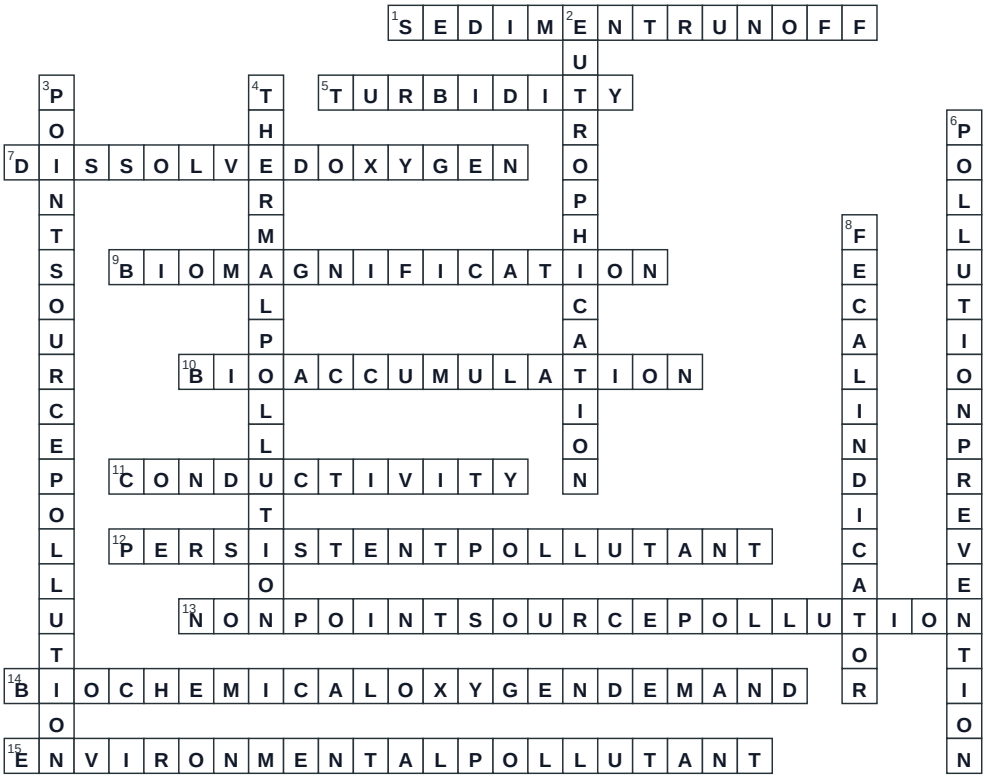
Environmental Pollution Crossword

Medium | 15 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

1. Sediment runoff
5. Turbidity
7. Dissolved oxygen
9. Biomagnification
10. Bioaccumulation
11. Conductivity
12. Persistent pollutant
13. Nonpoint-source Pollution

ACROSS (continued)

14. Biochemical oxygen demand
15. Environmental Pollutant

DOWN

2. Eutrophication
3. Point-source Pollution
4. Thermal Pollution
6. Pollution prevention
8. Fecal indicator

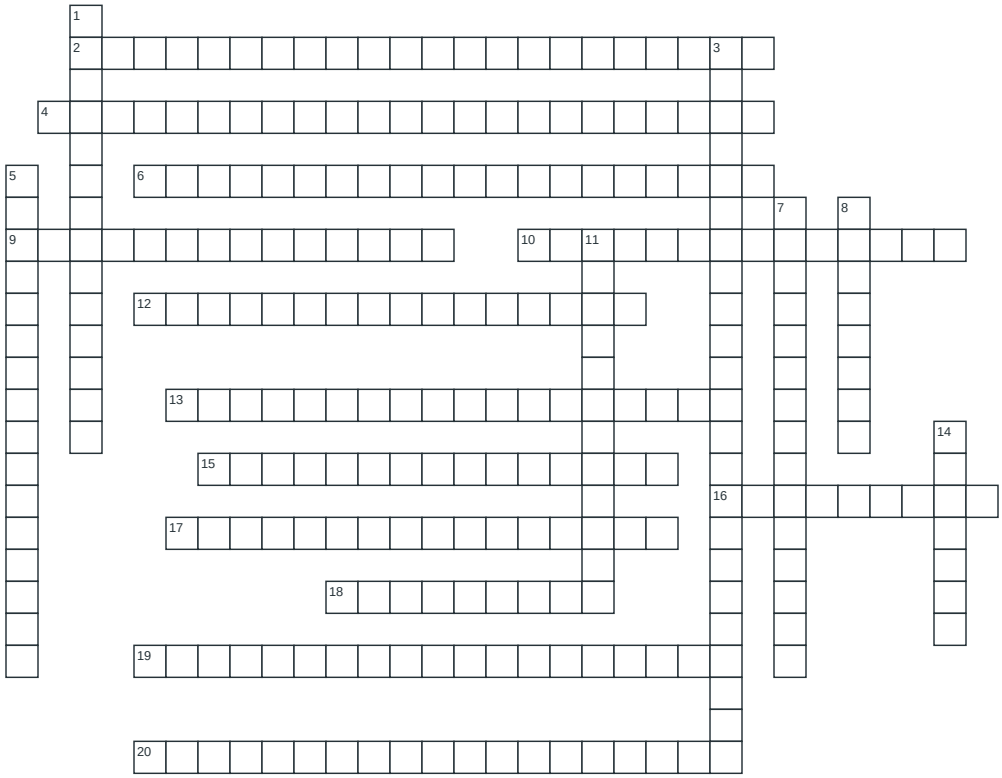
Environmental Pollution Crossword

Hard | 20 clues | Student Worksheet

Name: _____ Date: _____

Directions: Use the clues to complete the grid. Omit spaces, punctuation, and hyphens.



ACROSS

2. A substance or energy input capable of environmental harm

4. Estimate of oxygen used by microbes as they decompose organic matter.

6. A specific identifiable discharge location

9. Nutrient enrichment that can lead to excessive algae and low oxygen

10. Microorganism measured as evidence of possible fecal contamination in water.

12. Substance or organism in water that may affect its quality or uses.

13. Organism measured to assess possible pathogen contamination.

15. Buildup of a substance in an organism over time

16. Dissolved nutrient that can contribute to eutrophication.

17. Increase in contaminant concentration at higher trophic levels

18. Cloudiness caused by suspended particles

ACROSS (continued)

19. Contaminant that breaks down slowly and can remain in the environment.

20. Actions that reduce or eliminate pollutants before they enter the environment.

DOWN

1. Soil particles carried from land into surface water by flowing water.

3. Pollution entering from diffuse sources across an area

5. A harmful alteration of environmental temperature, often in receiving water

7. Oxygen gas in water that is available to aquatic organisms.

8. Reference measurement used to compare later observations.

11. Measure that can indicate dissolved ions in a water sample.

14. Dissolved nutrient that can contribute to excessive aquatic plant growth.

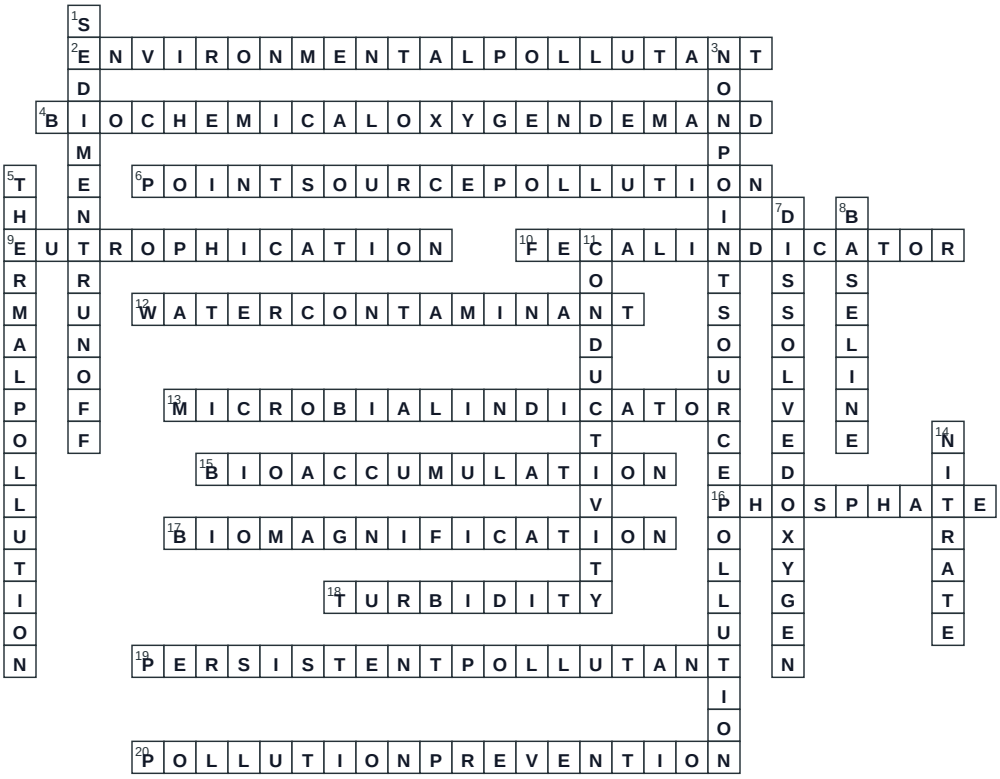
Environmental Pollution Crossword

Hard | 20 clues | Teacher Answer Key

TEACHER ANSWER KEY

Completed grid and numbered answers. Spaces and punctuation are omitted in the grid.



ACROSS

2. Environmental Pollutant
4. Biochemical oxygen demand
6. Point-source Pollution
9. Eutrophication
10. Fecal indicator
12. Water contaminant
13. Microbial indicator
15. Bioaccumulation
16. Phosphate
17. Biomagnification
18. Turbidity

ACROSS (continued)

19. Persistent pollutant
20. Pollution prevention

DOWN

1. Sediment runoff
3. Nonpoint-source Pollution
5. Thermal Pollution
7. Dissolved oxygen
8. Baseline
11. Conductivity
14. Nitrate
